

Team: Santiago Macias Fernández, Oscar Juanpablo Rivera León, Marco Rodrigo Campoy Mendoza

Devlog 1 - Prototype

September 7, 2025

- start to do the style

Commentary: as the same as my team mate, We had some issues on how to work as a team simultaneously in the same VS project and being able to see the changes made to the project. All issues were resolved.

September 8, 2025

- i finish the fist index.css
- css style of the help page was start

Commentary: We had a hard time animating the bubbles but we managed to achieve the effect at the end of the day. We learned some interesting CSS features.

September 9, 2025

- Css form de help page was done
- We tried to implement bootstrap
- We improved the format of the overall project

Commentary: attempt to include bootstrap .
