

Personal Devlog 2 - Prototype

October 13, 2025

- Helped out further stylizing the webpage
- Pointed out critical errors to be fixed
- reviewed the changes made

Commentary: The required fixes were made to the website

September 16, 2025

- Investigated how to deploy the website on Render
- Helped to built the "server.js" file
- Pointed out some issues with the ejs

Commentary: Learning how to deploy a website was kinda fun

September 17, 2025

-after failing to connect the database, I deployed an stable version of the site in Render

Commentary: Deploying the website was a swift process, not a big deal.
